	Steve Shears advised that the old trailer water tank was split and in need of repair or replacement, he also advised that the new whirlybirds for the roof had arrived. Dan Graham addressed the chair and asked why the Delegates votes in the previous meeting had been completely ignored. The President advised that the votes should have gone to members, and that he had made a mistake. Stephen Shears advised that there was only two days to advertise the ANRPB National. We will have to move the race to the second Bourke race. Norm Achurch suggested using the smaller truck only. Not feasible It was moved by the delegates that the All Age Derby birds be liberated second and the 2nd Bourke birds be liberated first. This is to be voted on by the members. BLK Alex Caruana would like to correct the previous minutes and advise that he called for the resignation of Steve Shears, Dave Gordon and Mark Jeffery ,Not Sam Sultana. Alex also stated that the Truck Committee should be run with elected members. Alex also advised that he has organised to have the substance and residue on our race baskets scientifically analysed. He advised Steve Shears of the Lab involved. IHPS spoke on entrants of their squeaker sale who were not flying in CCF being rejected by LIV. Mark. It was only a couple of birds for recent previous flyers, and they thought it was in the spirit of promoting pigeon racing. RPS asked what time the birds were fed on the previous race ? Advised it was 8am. Nash questioned why the instructions from the vote of delegates at the previous meeting were ignored? Apparently it was the Drivers decision.
